

Table of Expertise by Hours

This table is based on different levels of proficiency and mastery in a subject or skill. This can help categorize expertise levels in consulting, training, or any professional field.

| Expertise Level | Hours of Experience | Description |
|-------------------------|---------------------|--|
| Beginner | 0 - 100 | Basic knowledge, entry-level understanding, initial learning phase. |
| Novice | 100 - 1,000 | Some practical experience, can perform basic tasks with guidance. |
| Intermediate | 1,000 - 5,000 | Solid understanding, can work independently, and solve moderate issues. |
| Advanced | 5,000 - 10,000 | Deep expertise, problem-solving, ability to train others. |
| Expert | 10,000 - 25,000 | Mastery level, strategic thinking, leadership, and high-impact execution. |
| Authority | 25,000 - 50,000 | Industry thought leader, recognized expert, creates frameworks and methodologies. |
| Legendary/Master | 50,000+ | Pioneering field advancements, world-class expertise, innovator, and legacy builder. |
